About Power Energy Ghana Expo

Power Energy Ghana Expo is would be the finest marketing and reaching out platform for global manufacturers and exporters of all products and items related to power energy and electrical and engineering to exhibit and meet with their partners and distributors and end customers in the Ghana and West African region.

The expo is expecting **100+** exhibitors with over **4000+** professional visitors in the expo from the power and electrical engineering installation and dealership and distribution business in Ghana and West Africa, at Accra International Conference Centre, Ghana from **11-13 Oct 2023**.

The expo is organized under the auspices of the Ministry of Energy & Ministry of Trade & Investment of Ghana and also with the support of all major chambers and sectoral associations in Ghana, including the AGI, Ghana National Chamber, Ghana Electrical Contractors Association, Ghana Electrical Dealers Association etc.

GHANA

Exhibitor Profile:

- ❖ Generation of electrical energy
- ❖ Electrical Distribution & Transmission Equipment
- ❖ Power electronics
- ❖ Electrical substations
- ❖ Power distribution and control
- ❖ Process control products
- ❖ Electricity measuring, metering and control
- ❖ Automation systems and equipment
- ❖ Lightings and lighting systems
- ❖ Maintenance and services
- ❖ Renewable energies, New energies
- ❖ Training and education
- ❖ Turn-key contracting
- ❖ Consultancy Generation of electrical energy
- ❖ HVAC Equipment & Accessories
- ❖ Hydro Power
- ❖ Insulation material
- ❖ Installation Equipment
- ❖ Intelligent Building Products
- ❖ Transformers & Generators
- ❖ Electrical Control Devices
- ❖ Electronics
- ❖ Components and Accessories
- ❖ Wire & Cables
- ❖ Energy Efficiency & Conservation Solar & Wind Power Equipment
- ❖ Insulators
- ❖ Switchgear and Control Gear
- ❖ Power Transmission Equipment's
- ❖ Thermal Power

Visitor Profile:

- ❖ Government Ministries, Energy Departments and Agencies
- ❖ Consulting Engineers, Project developers and Construction Firms
- ❖ Electrical Contractors, Installation Engineers, Dealers & distributors
- ❖ Importers, Distributors and Agents
- ❖ Contractors, Developers, Engineers
- ❖ State Owned / Public and Private Power Utilities
- ❖ State Owned Transmission and Distribution Utilities
- ❖ Architects, Consultants and Engineers
- ❖ Company Owners / Partners
- ❖ Environment Agencies and Government Personnel
- ❖ Facility Managers | Directors
- ❖ Independent Power Producers
- ❖ Industrial Co - generators / Self Generators
- ❖ Interior / Lighting Designers
- ❖ Manufacturers
- ❖ Marketing & Sales Personnel
- ❖ On-site Power and Back-up Power distributors and dealers
- ❖ Original Equipment Manufacturers (OEMs)
- ❖ Project Directors & Managers

Market Insight

5000MW+ installed power generation capacity, still cannot meet demand

Huge transmission losses (25%) impacting country economical & industrial growth

10-15% rise in annual demand for power from residential and commercial sector

More power generation needed from renewable sources of energy

Ghana with a population of 31million and total installed power generation capacity of over 5,000MW in 2021 – is a power exporter to its neighbors and 85% of the population have access to power, majorly urban population.

Ghana have made significant progress in last decade in increasing electricity generation and access, resulting in high economic growth. However, inefficiencies lie besides these improvements including extraordinarily high distribution losses and electricity is quite expensive in Ghana.

About 25% of electricity generated in Ghana is lost at the retail end, caused partially by dilapidated infrastructure as well as commercial losses.

Ongoing grid expansions, which include the completion of transmission lines and Bulk Supply Points (BSPs) across the nation, will allow further exports to other neighboring countries in the sub-region.

Hydro generation, as well as thermal generation fueled by crude oil, natural gas, and diesel, continue to be the main sources of Ghana's power supply. Ghana also exports power to Togo, Benin, and Burkina Faso.

The total installed capacity for existing plants in Ghana is 5,134 Megawatt (MW), Thermal power generation accounts for the largest share - about 6%, followed by hydropower – 33%, and balance from renewable source.

Take advantage of AfCFTA by setting up in Ghana

- Indian High Commissioner to Indian businesses

By Isaac Ofori SAKALA

The Indian High Commissioner to Ghana, Sagendra Kishore, has urged Indian businesses to set up in Ghana to take advantage of the African Continental Free Trade Area (AfCFTA).

The Indian High Commissioner to Ghana, Sagendra Kishore, has urged Indian businesses to set up in Ghana to take advantage of the African Continental Free Trade Area (AfCFTA). He said that the AfCFTA is a historic moment for the continent and that Indian businesses should take full advantage of the opportunities it offers. He also urged Indian businesses to set up in Ghana to take advantage of the AfCFTA.

Ghana hosts largest power, technology exhibition

BY ANITA ANKORAH

GHANA will host the largest Power, Energy, Technology and Innovation Exhibition in Africa. The event is scheduled for the Accra International Conference Centre (AICC) from November 14 to 16, 2022 in Ghana, at the Accra International Conference Centre (AICC).

The exhibition is organized by BEG-4117 Energy EXPO Ghana based in United Arab Emirates (UAE) under the auspices of the Ministry of Trade and Industry in a joint partnership. The event will feature over 100 exhibitors and is expected to attract over 4000 visitors from Ghana and West Africa. It is expected that through the event, the power and energy sectors of the country will be significantly boosted.

in order to build a robust power sector in the country. He said Mr James stated that the event would create an opportunity for the Ghanaian and West African manufacturers and suppliers who would exhibit during the event. This will help all stakeholders from various and investment in energy to enlarge the power business. Mr James said that, the event would bring together manufacturers, exporters, wholesalers, distributors and distributors of the power electrical energy equipment, cables and products, including transformers, wires, solar panels, batteries, inverters, generators, inverters in the electrical industry. He will be leading close to 100 exhibitors, from India, Turkey, Nigeria, Italy, UAE, UK, France, China and other countries and expecting over 4000 visitors from Ghana and West Africa. He added: Mr James therefore encouraged key stakeholders and associations such as the Ghana Electrical Contractors Association, Ghana Electrical Dealers Association, Ghana Union of Traders Association, Energy Chamber of Ghana, Ghana Chamber of Commerce and Industry covering others to promote their participation in the event. The Deputy Director, Power Transmission, Ministry of Energy, Mr Solomon Nwabudak indicated that the event would offer an opportunity for stakeholders and industries to dialogue and see how to push the business of energy. "It was a challenge for several years and industries in Ghana with their investments as that in some cases in the future we would have equal representation," he challenged. On the part of the president of Ghana Union of Traders Association, Mr Joseph Obeng stated that the event would be a great opportunity for Ghanaian producers and their goods to be sold in the local market as well as to other markets.

He added that the introduction of the program made, content and critical issues were the theme of power distribution in the country. In addressing this challenge, he said the government was committed to introducing innovative technologies to tackle the issues. Other measures being undertaken to improve the transmission of power, in-depth incorporation of Africa's indigenous to enable greater access to both rural and urban in the country, and enhance energy security and the accelerated personal energy development. He urged the exhibitors and visitors to establish sustainable partnerships that would ensure Ghanaian development in Ghana's energy sector. He underscored the government's commitment towards sustainable energy development and affordable electricity that would bring about inclusive industrial growth in the country. The president of the Ghana

Over 60 businesses attend power exhibition in Accra

BY JESSEL LARLEY THERSON-COFFE

More than 60 businesses have participated in the first Power & Energy Ghana Expo 2022, which was held at the Accra International Conference Centre (AICC) from November 14 to 16, 2022. The exhibition was organized by BEG-4117 Energy EXPO Ghana based in United Arab Emirates (UAE) under the auspices of the Ministry of Trade and Industry in a joint partnership. The event will feature over 100 exhibitors and is expected to attract over 4000 visitors from Ghana and West Africa. It is expected that through the event, the power and energy sectors of the country will be significantly boosted.

Mr Aboya (middle) cutting the tape to open the exhibition

Mr Aboya (middle) cutting the tape to open the exhibition. The Ghana Union of Traders Association (GUTA) has urged the government to subsidize the renewable energy sector to attract investors. Dr. Joseph Obeng, President of GUTA, said that the government should provide incentives to encourage private sector investment in the renewable energy sector. He noted that the renewable energy sector has a high potential for growth and job creation, but it requires government support to become a viable business. He called on the government to provide subsidies, tax breaks, and other incentives to attract investors and promote the growth of the renewable energy sector. He also urged the government to improve the regulatory framework for the renewable energy sector to ensure a level playing field for all investors.

VENUE BRANDING

TESTIMONIALS

Hon. WILLIAM OWURAKU AIDOO
Deputy Minister, Ministry of Energy

The Deputy Minister **Hon Owuraku**, in his inaugural address welcomed both the exhibitors and visitors in the industry highlighting it is the right time of partnership between the international electrical and power solution providers especially from India Turkey and Middle east who exhibited and Ghanaian business and trading community by the way of taking and using the opportunity on account of the African Continental Free Trade Area (AfCFTA) and improving the infrastructure with advancement of adoption of new power and electrical solutions, especially the renewable energy and power conservation solutions.

The Indian High commissioner to Ghana H.E. **Mr. Sugandh Rajaram** commended the organizers for organizing such an exhibition for manufacturers and distributors in Ghana. He stressed that the relationship between Ghana and India cannot be overemphasized and added that the event will go a long way to strengthen the good relationship between Ghana and India.

H.E. Mr. SUGANDH RAJARAM
High Commissioner of India to Ghana

Post Show Feedback

Exhibitors and Visitors expressed satisfaction of participation in the expo with return of investment. Exhibitors and Visitors are confident of more international participation in 2023 and further editions of the expo, exhibitors have got lot of queries from prospect partner dealers and distributors and also retail queries too. 84% of the visitors & exhibitors find their prospect partners and supply chain network in the expo.

Exhibitors of 2022 have submitted their subsequent participation request to repeat their participation in 2023 and this is promising in spreading the word of Power & Energy in Ghana.

TERMS OF EXHIBITION PARTICIPATION

1. POWER ENERGY GHANA

2. Definition: The “Exhibition” shall mean **POWER ENERGY GHANA**. The “Exhibitor” shall mean the party to whom space has been allotted in the exhibition and ‘Organizer’ shall mean “BIG4SURE EVENTS”,

3. Space rent and basic conditions for participation: As discussed in the form above

4. Special Pavilions: Any Association or Chamber if they book 10 stalls in the Exhibition then that block will be known as their Pavilion.

5. Terms of Payments: The Application & Contract Form must be submitted along with 100% payment toward participation cost, latest by 15TH Sept, 2023. All payments must be made by Cheque/Demand Draft/RTGS/Swift Transfer in favor of “BIG4SURE EVENTS FZCO”. In case of RTGS valid UTR copy must be shared immediately after payment. In case of SWIFT/ WIRE transfer, the proof of payment should be shared and the payment should credit in the organizer account before the exhibition to ensure stand is handed over to the exhibitor.

6. Allotment of Exhibition Space: The Organizers reserve the right to refuse allotment of space to any reason. Organizers will make confirmation of allotment of space on receipt of Application Form duly signed, along with appropriate payment.

7. Withdrawal from Participation: Following withdrawal from participation, all payment made by the Exhibitor shall be forfeited.

8. Change of Venue, Dates etc: The Organizers reserve the right to change the venue / dates and duration of the exhibition, if exceptional circumstances so demand. In such an event, the obligation of Exhibitor to participate shall remain in force, so long as he informed about the changes as early as possible, either by individual communication or press advertisement.

9. The Organizers also reserve the right to change the floor plan and for location of space allotted to an Exhibitor or of exit / entry points, passages, etc any time before the commencement of erection of stalls. If in the opinion of the Organizers, such changes are necessary, in case of changes of location of stall, the Exhibitor will be offered at least two alternatives from which to select. Any such change shall not be sufficient ground for Exhibitors to cancel their participation, and in case of withdrawal from participation, no refund will be permissible. Furthermore, Exhibitors shall clearly indemnify the organizers against all claim, cost or demands arising out of any such aforementioned change or due to failure of any services during the exhibition period, including the construction and dismantling of stalls.

10. Insurance & Liability: Exhibitors are advised to obtain Insurance cover against all risk. It is clearly understood that the Organizers stand indemnified by the Exhibitors in respect of any loss or damage to property due to theft, fire, etc, or injury to any person as well as third party claims.

11. Lien on Exhibits: The Organizers reserve the right to retain all or some of Exhibitor’s goods/exhibitors as collateral, till all the dues including charges for services, damages, or penalties, if any are settled by the Exhibitors. Any costs for retention of the collateral will also have to be paid by the Exhibitors.

12. Binding Terms of Contract: The submission of the Application & Contract Form duly signed by an authorized officer of the applicant company shall be deemed as confirmation of participation and acceptance of these terms of contract by the Exhibitors. The contract becomes effective as soon as the Organizers have confirmed the allotment of space to the Organizers have confirmed the allotment of space to the applicant. Dispute if any, will be subject to local Jurisdiction.

13. Supplementary Rules & Regulations: All rules and regulations detailed in the Exhibitors Manual (being issued to each exhibitor) as well as any further rules framed by the Organizers from time and circulated to all Exhibitors shall be deemed to be part of these Terms of Contract and shall be binding on Exhibitors.

I have filled the above form and request BIG4SURE EVENTS to book my stall against the full payment in advance

I agree to above terms and conditions
